EDUCATION

BA (Hons) Stage Management and Technical Theatre
Royal Welsh Music of College and Drama
(2025 - 2028)
A Levels - Music, Music Technology and D&T Product Engineering
Langley Park School for Boys
(2022 - 2024)

PERSONAL STATEMENT

As a passionate and experienced theatre technician, I've worked on a wide range of productions in sound, lighting, and stage management, including paid roles during my gap year. I've mixed, operated and designed lighting for complex live events with numerous inputs and extensive lighting rigs. I've taught and mentored students, handled technical problems under pressure, and collaborated with other freelance professionals on demanding events. With a strong musical background as a classical singer, I regularly perform with National Youth Choir. I regularly attend theatre and opera productions, constantly learning from industry professionals.

EXPERIENCE

Royal Welsh College of Music and Drama September 2025 - Present
Student

- **BA1 Project:** a 70s disco themed event supporting Stonewall. I was the Technical Manager of the stage team, and assisted in setting up the sound system and helping mix the event.
- **Refreshers:** a live music event in the style of a festival. I was a part of the sound team and assisted in programming the desk, setting up the PA and mixing the event.
- **Orpheus in the Underworld - Opera:** I designed and recorded a variety of sound effects and collaborated with the director to achieve a sense of realism within the opera

Langley Park Centre for the Performing Arts September 2024 - August 2025
Venue Technician

As the Venue Technician, I was responsible for operating and maintaining sound, lighting, and AV equipment in the performance spaces.

My role involved coordinating with school staff and external clients to ensure seamless technical support for all events. I fulfilled sound, lighting and AV requirements, and booked freelance staff as necessary to ensure smooth operations.

Additionally, I maintained high safety standards, conducted risk assessments, and supervised equipment maintenance. I also mentored the student technical team during school events. My work helped achieve first-class technical services for all performances and events.

Freelance Live Sound Engineer and Lighting Designer May 2023 - Present

Musicals - Highlights include: Bromley Musical Theatre Company (High School Musical, Footloose), Spotlights Theatre School (We Will Rock You, The Addams Family), Langley Park School for Boys (Chicago: Sound No.2)

Dance Shows - Highlights include: Magpie Dance, Katie Cox Dance Studio, Twiin Dance Company, WestWay School of Performing Arts

Other Events: New Testament Church of God, CityGate Church

Freelance Recording Engineer December 2022 - Present

- **Bromley Youth Music Trust and Strings for Youth Classical Concerts:** Symphony and chamber orchestras, wind bands, string quartets and choirs in concert halls and churches
- **Gonville & Caius College (South London Choral Awards):** Variety of choirs from small 16 member chamber choirs to 40+ members choirs in a Concert Hall
- **Various Groups at Rockfield Studios:** Rock, pop, folk style bands and groups in a professional recording studio
- **Langley Boys' Chamber Choir:** Various Evensongs in Churches and Cathedrals

WORK EXPERIENCE

Autograph Sound Recording: Assisting the Warehouse and Digital departments; PAT testing, audio equipment testing, repairing and creating network cables, prepping equipment cases and consoles, configuring network switches

Royal Albert Hall: Assisting the Sound Team; setting up for children's concerts and preparing instrument microphones for a Royal Philharmonic Orchestral Concert

London West End - Phantom of the Opera; Les Misérables: Assisting the Sound Department; helping with the PA rig check, radio mic checks and fittings, orchestra line checks, shadowing and helping with the stage plot

Sonus Audio: Observing and assisting with a recording session of National Youth Voices, part of National Youth Choir, in London.
